

This is a detailed aeronautical chart of the Teesside International Airport area. The chart displays various flight information, including airspace boundaries, altitudes, and communication frequencies. Key features include:

- Airports and Airfields:** Teesside International, Leeds Bradford, Manchester Barton, Manchester TMA, and various smaller airfields like Sandtoft and Wickenby.
- Communication:** Frequencies for ATIS, Tower, Unicom, and other services are provided for several airports.
- Obstacles:** Obstacle symbols with their MSL and AGL altitudes are shown throughout the area.
- Navigation:** The chart includes a grid of latitude and longitude coordinates, as well as various navigational aids and waypoints.
- Geographical Features:** The River Tyne is shown flowing through the area, and the North Sea is visible to the east.
- Special Notices:** A box indicates "Controlled airspace with an upper vertical limit of FL195 and above is not shown". Another box provides the "Swanwick MIL ICF : 135.075 Flight Plan Address: EGZYOATT".
- Scale:** A scale bar at the top right indicates distances in nautical miles (0 to 10 NM).

The chart is color-coded to represent different types of airspace and terrain. Red lines and circles indicate specific flight information, while blue lines and circles represent other navigational data. The overall layout is a complex network of lines and symbols designed to provide pilots with essential information for safe flight operations.

CHANGE (9/25): DONCASTER SHEFFIELD AIRSPACE REMOVED.

AERO INFO DATE 12 JUN 25
